

I. ELECTION/ELECTED CLAIM IDENTIFICATION

Claims 1 – 83 are currently pending in above-identified patent application. Page 3 of the Restriction Requirement states that Applicants are required to elect one group of claims from the XIX groups listed at pages 2 and 3 of the Restriction Requirement.

In response to this Restriction Requirement, Applicants elect Group XIX, claims 78-83 directed to nucleic acid compositions. Applicants reserve the right to present any and all non-elected claims in a duly filed divisional application.

Applicants further note that the elected claims 78-83 are directed to a composition and therefore, if these claims become allowable, then other non-elected method claims in which the allowable compositions are used may be properly rejoined and may also become allowable. *See* MPEP §821.04.
